Union Proposal #90

Amend / add to 5.03

Unless otherwise agreed upon, underrepresentation shall be understood to mean fewer bargaining unit members that identify as belonging to one or more of the equity seeking groups than the availability data for the Greater Toronto Area reports.

Having regard to the above and available data, for the 2017 - 2020 Collective Agreement the following minimum thresholds will be used when applying intersectional equity data:

1) Where there are fewer than 44% members in the hiring unit doing bargaining unit

work that identify as women and/or where there are fewer than 30% of members in the hiring unit who identify as racialized people (“visible minorities”), then an applicant that self identifies as a racialized woman will be appointed.

2) if there are no racialized women candidates, then a candidate from the more underrepresented group will be appointed.

3) if there are no candidates under (1) or if the hiring unit has met both thresholds in (1), then a candidate that self-identifies as an Indigenous (Aboriginal) person and/or a person with a disability will be hired.

4) if there are no candidates from the under-represented groups or if the hiring unit has met the thresholds under (1), then a candidate that self identifies as LGBTQ will be hired.

Hiring unit data for the most recent consecutive three contract years (or, during implementation, such period up to three contract years as is available) shall be used to establish hiring unit representation.

Where issues of interpretation, data or process arise during implementation, the parties will review these at the Employment Equity Committee.
